PROFESSIONAL SUMMARY

Software Developer specializing in building practical and scalable web applications using JavaScript, Node.js, and modern frontend technologies. Passionate about full-stack development and SaaS products, with a focus on clean code, performance, and user experience. A self-taught developer with strong problem-solving skills and a continuous drive to learn, build real projects, and contribute effectively within a professional development team.

WORK EXPERIENCE

Admin Panel – React 09/2025 – 09/2025

Designed and developed a responsive admin dashboard using React, firebase enabling efficient data management through reusable components and structured state management. Focused on creating a clean user interface and improving usability for administrative tasks.

E-commerce Website – Freelance Project 05/2025 – 07/2025

Independently designed and developed a responsive e-commerce website for dietary supplements using HTML, CSS, JavaScript, and Bootstrap. Implemented a user-friendly interface, product display pages, and responsive layouts to ensure a smooth shopping experience across devices.

Mahmoud Khalil Museum Website – Academic Project 04/2025 – 04/2025

Designed and developed a responsive museum-landing page for the Mahmoud Khalil Museum using HTML, CSS, JavaScript, and Bootstrap. The project created to support an Archaeology student's graduation project, focusing on clear content presentation and responsive design.
